NURSERY STOCK INSURANCE

We guarantee every tree to arrive in good condition.

We guarantee every tree to be true to name.

We pay all carrying charges.

We will replace any tree that is not true to name.

A liberal guarantee, and we live up to it.

DARWIN TULIPS

As there will be no Dutch bulbs imported from Holland this year, we list the following domestic grown Tulips. We offer only Top-Size bulbs, 12 cm. and up, and from these bulbs you are sure to get large flowers, on long stems. Plant Tulips in November and December for best results.

- No. 9000 Bartigan—Dazzling crimson-scarlet; most popular.
- No. 9001 Blue Aimable—Heliotrope-lilac, inside violet, late.
- No. 9002 Clara Butt—Apple blossom pink; lovely art shade.
- No. 9003 Princess Elizabeth—Soft deep rose, long strong stem.
- No. 9004 William Copeland—Lavender, about the earliest.
- No. 9005 Wm. Pitt—Brilliant dark scarlet, very early forcer.
- No. 9006 Inglecombe Yellow—The well known light yellow.

Darwin

No. 9007 Mixed—Mixed all colors, as above.

Prices: Each 12c; 10 for 98c; 100 for \$8.75; 250 for \$50.50; 1000 for \$165.00, postpaid

IRIS, BEARDED OR GERMAN

When you think of Iris, probably you think of the old Flags you have seen growing for years in your grandmother's garden, for which you never cared for particularly. Well, these new Bearded Iris we offer are as different from the old flags, of childhood memory, as daylight is from dark. A delightful surprise awaits you. (In descriptions below, S is for Standard or upper petals, and F is for Falls, or drooping petals.)

- No. 278 Albert Victor—S soft blue, F light lavender.
- No. 279 Alcazar—S light bluish-violet, F red-purple.
- No. 280 A. E. Kunder—S bronze yellow, F magenta red.
- No. 281 Afterglow—Tall soft pink, shading to rich yellow.
- No. 282 Canary Bird—Lovely soft yellow throughout.
- No. 284 Caprice—Raspberry red, very beautiful.
- No. 285 Celeste—S sky blue, F deeper blue.
- No. 291 F. C. Shaw—S light claret; F claret shaded black.
- No. 292 Gertrude—Rare violet-blue, very large.
- No. 294 Iris King—S deep gold, F maroon.
- No. 295 Kochi—Fragrant rich red purple; a favorite.
- No. 299 Lohengrin—Rich silvery lilac, toned pink.
- No. 304 Maori King—Rich golden yellow throughout.
- No. 9008 Mme. Chobaut—Cream with maroon markings.
- No. 9009 Orchid and Gold—A blend of orchid, gold and purple.
- No. 307 Perfection—Rich violet-blue, fine form.
- No. 9010 Prosper Laugier—S bronzy yellow; F rich red.
- No. 308 Purple King—S light purple; F deep purple.
- No. 9011 Sass Pink—Large pink.
- No. 312 Seminole—S violet-red; F mahogany red.

Price on above Iris Each 11c; 3 for 29c; 10 for 95c
25 for \$2.15; 100 for \$6.95

DAHLIAS

Dahlias are as easily grown as potatoes. Simply plant the strong tubers we offer. Give them plenty of fertilizer and water, and cut beautiful blooms through the spring, summer and fall. The named varieties listed below represent practically all of the best Dahlias grown, many of them retailing from 50c to \$1.50 each.

- No. 213 A. D. Livona—Shell pink.
- No. 214 American Beauty—Large, fine American Beauty red.
- No. 216 Blue Stocking—Cactus type, purple blue.
- No. 217 Barbara Redfern—Blends of old rose and orange.
- No. 218 Calthe Coolidge—Large, rose, pink and salmon.
- No. 244 Gloriana—Pure gold decorative.
- No. 225 Jean Kerr—The best white Dahlia.
- No. 226 Jersey Beauty—Pure clear pink, the best Dahlia grown.
- No. 227 Jersey Beacon—Chinese scarlet, very large blooms.
- No. 238 Jane Cool—Large golden border decorative.
- No. 235 Mrs. Carl Salbach—Large, lavender pink, decorative type.
- No. 236 Mrs. Idever Warner—Very large orchid, decorative.
- No. 241 Pride of California—Deep red, decorative type.
- No. 242 Pink Flamingo—Intense rose pink.
- No. 249 William H. Hogan—Large red, white tips.

PRICES ON ALL DAHLIAS SHOWN ABOVE AS FOLLOWS:
Each 19c; 3 for 52c; 10 for \$1.55; 25 for \$3.19

CANNAS

Nothing adds more color to a planting than a choice bed of Cannas, and they come back year after year, getting better all the time. The varieties we offer are the best and the most handsome in commerce today.

- No. 263 King Humbert—Coppery scarlet flowers, bronze foliage.
- No. 264 Yellow King Humbert—Deep yellow flowers flecked red.
- No. 267 Eureka—Creamy white flowers, green foliage.
- No. 269 Florence Vaughn—Large pure yellow flowers, lovely.
- No. 271 Ambassador—Large heads of orange flowers, bronze foliage.
- No. 272 King Midas—Heavy heads of light gold; green foliage.
- No. 273 Madam Crozy—Red flowers tipped with gold; striking.
- No. 275 Hungaria—Heavy heads of pure pink flowers.
- No. 276 Mrs. Alfred Conrad—Salmon pink or rare beauty.

Price on all Cannas: Each 9c; 3 for 25c; 10 for 73c;
25 for \$1.69; 100 for \$6.25

A bed of 10 King Midas, surrounded by 10 Mrs. Alfred Conrad makes a striking combination of light gold and pink.

GLADIOLUS

Nothing you can plant will give you more satisfaction, or more beautiful flowers for the money paid out, than Gladioli. Of the very simplest culture, they grow anywhere, for anybody, and are sure to bloom. Throughout the South the very best results are obtained by planting in fall. A bed of Gladioli is a sight never to be forgotten, and it is one of the loveliest and most lasting of all cut flowers. We sell only extra large bulbs, 1½ inch and up, strictly Number One.

- No. 190 Alice Tiplady—Golden orange.
- No. 192 America—Light pink.
- No. 194 Betty Nuthall—Coral pink, very large.
- No. 196 Capt. Boynton—Large lavender.
- No. 9012 Charles Dickens—Purple.
- No. 198 Chicago White—A fine early white.
- No. 9013 Dr. F. E. Bennett—Bright red.
- No. 9014 Dream of Beauty—Deep wine.
- No. 199 E. J. Shaylor—Deep rose; ruffled, early.
- No. 9015 Flaming Sword—Early, clear red.
- No. 9016 Golden Eagle—Early yellow.
- No. 201 Halley—Deep salmon orange.
- No. 9017 Helga—Early salmon pink.
- No. 202 Los Angeles—Salmon pink.
- No. 9018 Minnet—Lavender.
- No. 204 Mrs. F. Pendleton—Pink and red.
- No. 9019 Mrs. F. King—Deep pink.
- No. 206 Picardy—Sensational new shrimp pink.
- No. 9020 Pride of Wanekah—Lavender rose.
- No. 9021 Spirit of St. Louis—Burnt orange.
- No. 208 Souvenir—Lovely pure deep yellow.
- No. 9022—Wasaga—Nice buff.
- No. 212 Mixed—All colors and varieties, many fine ruffled ones.

Prices on all above Gladioli: Each 4c; 3 for 10c; 10 for 29c; 25 for 69c; 100 for \$2.45. Write for special quotation on large quantities.

PEONIES

Peonies will grow and do well in the South. Success depends upon selection of proper varieties, and buying strong roots. The varieties we offer are especially adapted in the South, and they will bloom for you, if planted before February 15th.

- No. 255 Couronne D'Or—White, flecked carmine, fragrant.
- No. 9023 Duc De Wellington—Bomb type, strong grower. Snow-white, yellow center.
- No. 256 Duchess De Nemours—Sulphur yellow, crown type.
- No. 9024 Edule—Superba—Bright, clear mauve-pink. Fragrant, early.
- No. 252 Felix Crouse—Large, rich ruby red; bomb type.
- No. 9025 Floral Treasure—Clear pink, lighter center.
- No. 253 Fragrans—Dark pink, almost red, very fragrant.
- No. 9026 Francis Ortegat—Purplish crimson. Mideson. semi-rose type.

- No. 9027 **La Roserie**—Creamy white with prominent stamens. Midseason.
 No. 9028 **President Roosevelt**—Midseason, very fine, free flowering, brilliant red.
 Price on Peonies: Each 29c; 3 for 69c; 10 for \$2.15. All above Peonies are 3 to 5-eye strong divisions.

MISCELLANEOUS BULBS

- No. 171 **Anemones (Wind Flowers)**—One of the most showy flowers. Gorgeous assortment of colors. Each 5c; 10 for 39c; 100 for \$3.00.
 No. 172 **White Calla Lily**—Aethiopica, large white. Beautiful, large white Calla. Contrary to general opinion, these can be grown successfully out of doors. 1½-1¾ inch diameter. Each 19c; 10 for \$1.50.
 No. 173 **Yellow Calla Lily (Richardia Elliottiana)**—Deep, pure yellow. Does well outdoors. 2-2½ inch diameter. Each 25c; 10 for \$2.25.
 No. 9029 **Black Calla Lily (Arum Pictum)**—Very large black flower fading to maroon. No disagreeable odor. Each 60c; 10 for \$5.50.
 No. 9030 **Pink Calla Lily (Richardia Rehmanni Carminea)**—This is a dwarf Calla. The flowers are rose pink, but fade to cerise. Very unusual and scarce. Each 65c; 10 for \$6.00.
 No. 176 **Manuculus**—Splendid cut flowers, in variety of lovely colors. Plant with claws of bulbs down. Each 8c; 10 for 70c; 100 for \$6.25.
 No. 180 **Giant Hybrid Amaryllis**—One of the finest strains of Amaryllis in America. Flowers immense, of most perfect form. Come in mixtures of rose, red, crimson, solid colors, and same colors striped white. A real floral treat. Large bulbs. Each 39c; 10 for \$3.25.
 No. 181 **Tuberose**—We offer the genuine Mexican Tube Rose, blooming size bulbs. Each 4c; 3 for 10c; 10 for 29c; 100 for \$2.35.
 No. 9031 **King Alfred Daffodils**—Very large, pure yellow, fringed petals. Each 12c; 10 for \$1.00; 100 for \$9.50. Double-nosed bulbs.
 No. 9032 **Mixed Daffodils**—A mixture of all types of daffodils, early and late. All of No. 1, double-nosed bulbs. Each 7c; 10 for 55c; 100 for \$4.50.
 No. 9033 **Jonquil O. Campenelle**—Bright yellow, very fragrant. Very lasting. Double-nosed bulbs. Each 8c; 3 for 21c; 10 for 59c; 100 for \$4.95.

PEACHES

No long winded talk about peach trees is necessary. They are entirely at home in the South and Southwest, and certain varieties may be grown in any kind of soil and in every county in Texas, Oklahoma, Louisiana, Arkansas and the South. If you do not know what varieties are best for your locality, leave it up to us, we will select those varieties that will give you fruit. The trees we offer you this year are the best that can be grown; fine root systems, smooth, healthy bodies and limbs. You could not buy a better tree at \$1.50 each.

The 2 to 3 foot trees quoted below are fine young trees, used largely by orchardists, commercial growers and large home orchards. They usually bear three years after planting.

The 3 to 4 foot trees quoted below are bought generally by people who want a good young tree, at a low price, and are in no particular hurry. These 3 to 4 foot trees usually bear two years after planting.

The 5 to 6 foot well-branched, bearing size trees quoted below are the best that can be had, at any price, and are selected from thousands of trees for customers who want the best. These trees usually bear the year following planting.

- Alexander**—Semi-cling, red cheek, good quality; ripens May. No. 501—2 to 3 ft. No. 502—3 to 4 ft. No. 503—5 to 6 ft.
Arp Beauty—Freestone, earliest of yellow fleshed peaches, good quality, ripens first of June. No. 504—2 to 3 ft. No. 505—3 to 4 ft. No. 506—5 to 6 ft.
Augbert—Yellow freestone, like Elberta; ripens August. No. 507—2 to 3 ft. No. 508—3 to 4 ft. No. 509—5 to 6 ft.
Belle of Georgia—Large freestone, white with red cheek. Fine quality, ripens two weeks before Elberta. No. 510—2 to 3 ft. No. 511—3 to 4 ft. No. 512—5 to 6 ft.

- Carman**—Large white freestone; fine quality, ripens July. No. 513—2 to 3 ft. No. 514—3 to 4 ft. No. 515—5 to 6 ft.
Champion—Large freestone, white with red cheek; sweet and delicious. Ripens long season through June and July. No. 516—2 to 3 ft. No. 517—3 to 4 ft. No. 518—5 to 6 ft.
Chinese Cling—Very large cling, creamy white, juicy and sweet; held in high esteem, but it is a shy bearer. No. 519—2 to 3 ft. No. 520—3 to 4 ft. No. 521—5 to 6 ft.
Early Elberta—Identical to Elberta, two weeks earlier. No. 522—2 to 3 ft. No. 523—3 to 4 ft. No. 524—5 to 6 ft.
Elberta—Yellow freestone, ripens July; the old standby. No. 525—2 to 3 ft. No. 526—3 to 4 ft. No. 527—5 to 6 ft.
Early Wheeler—Most profitable early peach, fine color, firm flesh. Ripens last of May. Quality only fair. No. 531—2 to 3 ft. No. 532—3 to 4 ft. No. 533—5 to 6 ft.

VISIT OUR NURSERY

Come to our nurseries, 10 miles west of Tyler. Take Dallas road out of Tyler; after you pass Airport, take first right hand and follow the arrow.

- Frank**—Very similar to Elberta, but much larger, and a big improvement on that fine variety, ripens late July.
 No. 534—2 to 3 ft. No. 535—3 to 4 ft. No. 536—5 to 6 ft.
General Lee—Clingstone, white red cheek; excellent for preserving, pickling, etc. Ripens last of July. No. 537—2 to 3 ft. No. 538—3 to 4 ft. No. 539—5 to 6 ft.
Golden Jubilee—Beautiful large yellow freestone, excellent quality, ripens late July, ripens 2 days before Elberta. No. 540—2 to 3 ft. No. 541—3 to 4 ft. No. 542—5 to 6 ft.

WHY YOU SHOULD BUY YOUR FRUIT TREES FROM US

- (1) You will get trees true to name.
- (2) We guarantee to replace any tree that does not arrive in good condition.
- (3) We ship promptly; same day order is received.
- (4) We have been growing and selling nursery stock since 1898; we know how to grow stock suitable for the South.
- (5) We supply trees free from disease.
- (6) Our prices are low—compare with others.
- (7) We prepay all transportation charges, mail, express or freight.

- Hatehaven**—Fruit large, round, red and yellow freestone of the finest quality, ripens about 17 days before Elberta. No. 546—2 to 3 ft. No. 547—3 to 4 ft. No. 548—5 to 6 ft.
Hart Cling—By far the best late cling. Very large, creamy white with blush. Juicy, sweet and delicious. Ripens about September 15th when peaches are scarce. No. 549—2 to 3 ft. No. 550—3 to 4 ft. No. 551—5 to 6 ft.
Henrietta—Large brownish-yellow cling; ripens last of August. No. 552—2 to 3 ft. No. 553—3 to 4 ft. No. 554—5 to 6 ft.
Heath Cling—An old favorite. Large creamy-white cling. Fine for preserves and pickles. Ripens August. No. 564—2 to 3 ft. No. 565—3 to 4 ft. No. 566—5 to 6 ft.
Hobson—Large red cheek cling; excellent quality of eating; also ships extra well, ripens June. No. 567—2 to 3 ft. No. 568—3 to 4 ft. No. 569—5 to 6 ft.
Honey—Medium size, skin marbled white and red; flesh white, tender, juicy and sweet. Especially adapted to Rio Grande Valley, Coastal Section and Warmer Sections of country. No. 570—2 to 3 ft. No. 571—3 to 4 ft. No. 572—5 to 6 ft.

VARIETIES TO PLANT

If you are not sure of the best varieties for your locality, leave the selection to us. We will select good varieties that will grow well in your section of the country.
Indian Blood Cling—This is the genuine, old-fashioned, large Indian Cling, creamy white mottled deep red, flesh juicy and rich. Ripens July. No. 573—2 to 3 ft. No. 574—3 to 4 ft. No. 575—5 to 6 ft.
Japan Dwarf—Tree dwarf, very prolific. Skin and flesh red, freestone of best quality. Ripens last of May. Fine for Rio Grande Valley and warmer parts of country. No. 576—2 to 3 ft. No. 577—3 to 4 ft. No. 578—5 to 6 ft.

J. H. Hale—Free, large in size and of somewhat better flavor than Elberta. Deep red skin, yellow meated. An excellent variety from every standpoint. Ripens a few days later than the Elberta. No. 579—2 to 3 ft. No. 580—3 to 4 ft. No. 581—5 to 6 ft.

Kruschels Late—A magnificent peach; best late yellow freestone. Ripens October, very fine quality. No. 582—2 to 3 ft. No. 583—3 to 4 ft. No. 584—5 to 6 ft.

Mamie Ross—Large, white, almost covered with carmine. Flesh white, juicy and of good quality. One of the best for family use, and probably the best early commercial variety. Semi-cling. Ripens first of July. No. 585—2 to 3 ft. No. 586—3 to 4 ft. No. 587—5 to 6 ft.

Minnie Stanford—This is one of the finest yellow clingstone peaches on the market. Large deep yellow; firm flesh, delicious flavor and sweet. Ripens August. Makes excellent sweet pickles and preserves. No. 588—2 to 3 ft. No. 589—3 to 4 ft. No. 590—5 to 6 ft.

Mayflower—Free, the earliest peach known. Fruit medium size, entirely covered with red; blooms late. A good shipper and its high color makes it an attractive market variety. Last of May. No. 591—2 to 3 ft. No. 592—3 to 4 ft. No. 593—5 to 6 ft.

Old Mixon Cling. This splendid old variety is still one of the best. Large white, cling, juicy, sweet and splendid bearer. Ripens in July. No. 594—2 to 3 ft. No. 595—3 to 4 ft. No. 596—5 to 6 ft.

Pallas—Rich, sweet and fine grained. Ripens about June 10th. Excellent for Rio Grande Valley, Lower Louisiana, Mississippi and Florida. No. 597—2 to 3 ft. No. 598—3 to 4 ft. No. 599—5 to 6 ft.

Salway—Large brownish-yellow freestone, splendid quality. Ripens September. No. 600—2 to 3 ft. No. 601—3 to 4 ft. No. 602—5 to 6 ft.

Slappy—A fine yellow freestone, larger than Elberta, and of better quality. Ripens July. No. 603—2 to 3 ft. No. 604—3 to 4 ft. No. 605—5 to 6 ft.

Stinson—The best late peach. Cling sweet and juicy, ripens in October and November. No. 606—2 to 3 ft. No. 607—3 to 4 ft. No. 608—5 to 6 ft.

Texan—In our judgment this is the best eating peach ever grown. Of medium to large size, red cheek with creamy background, luscious, juicy, sweet and the finest peach flavor. Very thin skin, will not ship well. Ripens early to middle July. No. 609—2 to 3 ft. No. 610—3 to 4 ft. No. 611—5 to 6 ft.

WE PAY TRANSPORTATION

Remember, we pay carrying charges, parcel-post, express or freight. Consider this when placing your order for nursery stock.

APRICOTS

The Apricot is one of the most delicious fruits, and is as hardy as the peach and plum. Apricots have a tendency to bloom early, and get nipped by late freezes and frosts. However, the varieties we offer are late bloomers, and will usually bear a crop. Apricots seem to do better planted in the back yard, or wherever where too much cultivation is not carried on. When they do make a crop, they make up for lost time. Try some.

Cluster—Medium size; golden yellow, of excellent flavor. Originated in Texas from seed of Russian Apricot. Ripe in June. No. 668—2 to 3 ft. No. 669—3 to 4 ft. No. 670—5 to 6 ft.

Early Golden—Medium size, orange yellow fruit; sweet, juicy and highly flavored, a fine variety for Southern plantings. No. 674—2 to 3 ft. No. 675—3 to 4 ft. No. 676—5 to 6 ft.

Moorpark—Large size, yellow with orange cheek. This is the variety largely grown in California for canning and

drying. Well adapted for West Texas and New Mexico.

CHERRIES

Cherries may be grown with some success throughout the South and Southwest. Plant a few trees in and around your home. Sour cherries make wonderful pies and preserves, and the sweet cherries are delicious to eat.

New Century—We take pleasure in recommending this fine cherry for Texas and Southwest planting. Originated in Grayson County. Fruit medium to large, bright red, juicy, tart, fine flavored. Splendid for eating off the tree, cooking and pies. Tree strong grower and bears abundantly. If you like cherries, try New Century. No. 680—2 to 3 ft. No. 681—3 to 4 ft. No. 682—5 to 6 ft.

Black Tartarian (Sweet)—Large size of purplish black, excellent flavor. This is the large California Cherry that is sold everywhere on the market. Worthy of a trial. No. 683—2 to 3 ft. No. 684—3 to 4 ft. No. 685—5 to 6 ft.

Early Richmond—One of the earliest cherries, medium size, light red fruit, tart and juicy. A most satisfactory cherry. Makes excellent pies. No. 686—2 to 3 ft. No. 687—3 to 4 ft. No. 688—5 to 6 ft.

We guarantee every tree to arrive in good condition. We guarantee every tree to be true to name. We will replace any tree that is not true to name. A liberal guarantee and we live up to it. We pay all carrying charges.

PLUMS

Next to the Peach, the Plum is the most important fruit for the South and Southwest. All of our plum trees are two years old, budded and grown on heavy, high land, and have a fine root system, as well as well-branched, sturdy tops. Most of these trees will bear the year following planting. Our plums are grown from buds taken from clean, healthy trees that we know are true to name, as they have been bearing for years. In the varieties shown below, you will find varieties for all parts of the country, from Rio Grande Valley to the Northern part of the United States. If you are not certain what varieties will do the best in your locality, leave the selection up to us, and we will send you trees that will bear fruit in your locality.

Abundance (Japanese)—Large, amber in color changing to red. Fruit clingstone, juicy and good. One of the hardest of the Japanese varieties. Ripens a week later than Red June. No. 612—2 to 3 ft. No. 613—3 to 4 ft. No. 614—5 to 6 ft.

America—This is one of the very best plums for the South. Large, yellow, changing to red where exposed to the sun. Fruit productive. Ripens July. No. 615—2 to 3 ft. No. 616—3 to 4 ft. No. 617—5 to 6 ft.

Bruce—This plum is largely planted in South Texas, as it seems to do better in that section than any other. Ripens early, large red, fine quality, ships extra well. No. 618—2 to 3 ft. No. 619—3 to 4 ft. No. 620—5 to 6 ft.

Blue Damson—Fruit large, dark purple, fine flavor, highly esteemed for preserving and jams. Ripens in August. No. 621—2 to 3 ft. No. 622—3 to 4 ft. No. 623—5 to 6 ft.

Burbank (Japanese)—Fruit large, deep red overlying a yellow ground. Flesh deep yellow and very sweet. A prolific bearer and a cling. July. No. 624—2 to 3 ft. No. 625—3 to 4 ft. No. 626—5 to 6 ft.

Excelsior—The best plum for Rio Grande Valley, coastal sections of Texas, Louisiana, etc. Color wine-red, sweet, juicy, excellent quality. Ripens about June 15. No. 627—2 to 3 ft. No. 628—3 to 4 ft. No. 629—5 to 6 ft.

BE SURE TO GIVE CATALOG NUMBER

Gold—Fruit large, yellow with some red. Juicy, firm and of good quality. Tree is very productive. A good market variety. Ripens July. No. 630—2 to 3 ft. No. 631—3 to 4 ft. No. 632—5 to 6 ft.

Methley—The earliest and best-flavored plum we grow. Ripens May 10th. Color bluish red and meat blood red. Fruit sells for \$3.50 per bushel on market when others bring \$1.00. No. 633—2 to 3 ft. No. 634—3 to 4 ft. No. 635—5 to 6 ft.

Shiro—Large to very large, oblong, clear yellow. Quality unsurpassed. One of the finest plums to grow in the South. Ripen last of June. No. 639—2 to 3 ft. No. 640—3 to 4 ft. No. 641—5 to 6 ft.

Six weeks—One of the earliest plums, ripens in early May. Bright red, juicy, brings good price on market, and is good for jellies and preserves. No. 642—2 to 3 ft. No. 643—3 to 4 ft. No. 644—5 to 6 ft.

Wickson—One of the most productive Japanese varieties; originated by Burbank. Fruit largest of this class; deep maroon. Flesh dull yellow, firm and of good quality. Good keeper and fine shipper. No. 645—2 to 3 ft. No. 646—3 to 4 ft. No. 647—5 to 6 ft.

HANSEN HYBRID PLUMS

The varieties of plums shown below were originated by Prof. E. N. Hansen, one of the leading horticulturists of the United States. The outstanding features of this plum are:

- (1) Very hardy; will withstand any cold or heat.
- (2) Very productive; bear every year.
- (3) Bear early, frequently set crop year planted.
- (4) Bloom very late; escapes frost.
- (5) Stick on tree, hard to blow off; therefore fine for West Texas.

If you have had difficulty growing good plums, try these; you will get plenty of fruit.

Compass Cherry—Cross between Cherry and Plum. Fruit dark red, almost black, good size. Sure bearer. Good quality and excellent for cooking, preserving and jellies. Makes fine pies. No. 651—2 to 3 ft. No. 652—3 to 4 ft. No. 653—5 to 6 ft.

Opata—A beautiful sight when in bloom and is very fragrant. Fruit medium; purplish-red, splashed with green; flesh greenish in color and very pleasant in flavor. Clingstone. Ripens last of June and first of July. Tree hardy, spreading grower, and bears quite young. No. 657—2 to 3 ft. No. 658—3 to 4 ft. No. 659—5 to 6 ft.

Sapa—Tree somewhat dwarfish, thrifty, and often sets fruit in the nursery row at one year. Fruit large, dark purple with greenish speckles, flesh clear, dark purple-red, of fine flavor and with small pit. Excellent for cooking purposes. Clingstone. Ripens last of July. No. 660—2 to 3 ft. No. 661—3 to 4 ft. No. 662—5 to 6 ft.

PRICES ON ALL PLUMS ON THIS PAGE

	Each	10	100	1000
2 to 3 ft., Two-Year, sturdy young trees	\$.25	\$2.25	\$20.00	\$160.00
3 to 4 ft., Two-Year, some branches	.34	3.10	24.00	200.00

IMPORTANT

Throughout this catalog, you will find 5 to 6 ft. extra selected bearing size fruit trees listed. These trees are the pick of our entire crop. At grading time, we select the largest, straightest trees, with the best root system, and put them in this 5 to 6 ft. bearing size grade. Most of them

will bear the year after planting. Get the best and save time by planting these extra selected trees.

PEARS

Pears are a sure crop in the South. Select varieties that will give you fruit for eating, canning and preserving from July until October.

Keiffer—Fruit large, skin golden-yellow with a slight blushed cheek. This variety keeps well and its quality is greatly improved if fruit is ripened in dark cool room. Tree a strong grower and fruit ships well. Matures from September to October. No. 690—2 to 3 ft. No. 691—2 to 3 ft. No. 692—5 to 6 ft.

Garber—One of the finest and most reliable pears for Southern planting. Large, clear yellow, heavy bearer. Fine market variety; unsurpassed for preserves. Ripens September and October. No. 693—2 to 3 ft. No. 694—3 to 4 ft. No. 695—5 to 6 ft.

Barlett—One of the best varieties. Large size; yellow, juicy. Ideal for the home orchard as well as for marketing. An abundant bearer, ripening last of July and early August. No. 696—2 to 3 ft. No. 697—3 to 4 ft. No. 698—5 to 6 ft.

Le Conte—A bell-shaped yellow pear of good size. Flesh white, firm and juicy. Free, vigorous and bears young. Ripens last of July and early August. No. 702—2 to 3 ft. No. 703—3 to 4 ft. No. 704—5 to 6 ft.

Douglas—This pear is a big money-maker, and if planted extensively will re-establish the pear-growing industry in the South. Quality very finest, sweet, juicy, highly flavored and melting. Heavy bearer, blight-proof, ripens in July when pears bring a big price. Plant for home use and commercial orchard. No. 711—2 to 3 ft. No. 712—3 to 4 ft. No. 713—5 to 6 ft.

WHY YOU SHOULD BUY FROM US

- (1) Extra selected stock, true to name.
- (2) Prompt shipment, day order is received.
- (3) We prepay postage, express and freight.
- (4) Keep the South's money in the South.

APPLES

Apples can be successfully grown in the Southwest, if the right varieties are grown. The varieties shown below will thrive and bear fruit all over the South and Southwest; be sure and plant several apple trees around your premises.

Arkansas Black—Dark red, almost black, one of the best for Pecos Valley and West Texas. Ripens in September and October. No. 714—2 to 3 ft. No. 715—3 to 4 ft. No. 716—5 to 6 ft.

Early Harvest—Medium size, bright straw yellow; tender, sub-acid, fine for eating and cooking. Ripens in May. No. 717—2 to 3 ft. No. 718—3 to 4 ft. No. 719—5 to 6 ft.

Florence Crabapple—This is the best crabapple for the South and Southwest. Medium size, yellow and red, very juicy and acid. Makes best jelly known. Ripens in August. No. 720—2 to 3 ft. No. 721—3 to 4 ft. No. 722—5 to 6 ft.

Jonathan—Medium size, brilliant red and very juicy. Favorite everywhere. Ripens in September. No. 723—2 to 3 ft. No. 724—3 to 4 ft. No. 725—5 to 6 ft.

Red Delicious—This famous apple does well all over the South and Southwest. Large, juicy and highly flavored. Ripens in Fall. No. 726—2 to 3 ft. No. 727—3 to 4 ft. No. 728—5 to 6 ft.

Red June—Medium size, bright red, juicy, tart and good quality. Fine for eating and cooking; brings top market price. Ripens in June. No. 729—2 to 3 ft. No. 730—3 to 4 ft. No. 731—5 to 6 ft.

Winesap—Medium size, vivid red. An all purpose apple.

ripening throughout fall. No. 738—2 to 3 ft. No. 739—3 to 4 ft. No. 740—5 to 6 ft.
Yellow Delicious—Very similar to Red Delicious but seems to bear better in some localities. Of the same high quality. Ripens in fall. No. 741—2 to 3 ft. No. 742—3 to 4 ft. No. 743—5 to 6 ft.
Yellow Transparent—Large size, red and yellow. Good quality, crisp, sweet and fine texture. Free long lived and bears regularly. Ripens in September. No. 744—2 to 3 ft. No. 745—3 to 4 ft. No. 746—5 to 6 ft.

FIGS

Figs thrive in all portions of the Cotton Belt of the South as in no other section of the world; trees may be found growing in door-yards, near trash piles, in chicken runs, and near buildings in most luxuriant manner and producing enormous crops.

No home pantry is complete without canned and preserved Figs for winter use. Figs come into bearing very early. With proper spraying to hold leaves on, fruit may be had from May to November.

They require good fertilization, and do best on firm hard ground, kept free from all other growth.

Commercial Fig Growing is extending throughout the South. They can be planted 10 to 18 feet apart and the yield is heavy, thousands of pounds of fruit being produced per acre.

Brown Turkey—Probably the best fig for home use. Medium size, purplish brown, very sweet, highly flavored, and fine for eating fresh, with cream, or canned. No. 751—2 to 3 ft. No. 752—3 to 4 ft.

Celestial—Sometimes called Little Sugar Fig; the sweetest of all varieties. Ripens in mid-season. No. 756—2 to 3 ft. No. 757—3 to 4 ft.

Magnolia—Very large, greenish amber, very productive, but not quite so hardy as Brown Turkey. This is the Fig grown so extensively in South Texas for canning and shipping. A very sweet, luscious fig. No. 759—2 to 3 ft. No. 760—3 to 4 ft.

A NEW FIG TEXAS EVERBEARING

This is an outstanding new introduction. The facts we set out below are from observation and reliable information, which we checked for correctness. This fig was brought to Mississippi a number of years ago by a Frenchman from the Old Country. Several years later he moved to Tarrant County, Texas, about 15 miles from Fort Worth. He grew it for a number of years around his place, and introduced it to the Nursery trade.

Facts About This Fig

(1) It is harder than any other variety known, and may be grown 100 miles further north than any other variety.

(2) It is very large, as large as hen eggs. (3) Quality is unsurpassed. (4) Wonderfully productive. The owner of a one-acre orchard in Tarrant County in the summer of 1937 sold more than \$1000.00 worth of figs from his one acre. (5) Bears early. I saw cuttings that were planted in the nursery row in April with 18 well developed figs in August.

JAPANESE PERSIMMONS

Are destined to become one of the leading fruits of the Cotton Belt and lower South. This may seem an extravagant statement, but as soon as there is enough of the fruit on the market for the people to learn the richness and deliciousness, the demand will increase far in excess of the supply. Where the Persimmon is known on the market, it will have ready sale.

Tane Nashi—The best known and most popular variety; large, conical, pointed. Early bearer, early ripening and productive. Seedless. No. 764—2 to 3 ft. No. 765—3 to 4 ft. No. 766—4 to 5 ft.

Yemon—Large, flat, tomato-shaped. Somewhat four-sided. Skin light yellow changing to dull red, mottled with orange-yellow. Flesh deep, dull red, brown around the seeds of which there are usually a few. No. 9034—2 to 3 ft. No. 9035—3 to 4 ft. No. 9036—4 to 5 ft.

GRAPES

Grapes are easily grown; they produce a crop every year. The varieties we offer will thrive on any soil. There is always a ready market for whatever surplus you produce. By all means plant a few grapevines for home use, and, if possible, plant a vineyard to bring in ready money in the summer and early fall. Our vines are heavy, thrifty, two-year, ready to bear the first year. We prepay postage and express.

RIPENS IN JUNE

Headlight—A clear, dark red grape, very tender, delicious and sweet. The best early grape. No. 819.

RIPENS IN JULY

Brilliant—Vine strong grower; clusters large, color light to dark red, translucent with thin bloom; skin thin, tender; pulps tender and delicious. Yields heavy. Ripens about July 1st. No. 820.

Concord—This fine variety is still one of the best, and for looks, shipping quality, wine and jelly it cannot be beaten. Vine strong grower, heavy bearer, berry large, black. Ripens about July 25th. No. 821.

Niagara—A vigorous, healthy grower. Large cluster, and berry very large, clear white, of fine quality, ripens about July 20th. No. 822.

Delaware—Berry bright red, juicy and of high flavor. Succeeds well in South and does not rot. Ripens about July 15th. No. 823.

Carman—One of the most prolific and popular varieties; splendid for table or for wine, grape juice, preserves and jelly. Cluster very large, sometimes weighing two pounds; shouldered; very compact. Berry medium size; black with thin bloom. Skin tough, thin, never cracks; pulp meaty, but firm, and tender when fully ripe; splendid quality. Ripens in July. No. 824.

RIPE IN AUGUST

Edna—Large white of splendid quality; flavor similar to Muscat. Ripens in August. No. 827.
Armalaga—A vigorous, healthy vine, well suited to both black and sandy land. Berry large, yellowish green, slightly long, very sweet with peculiar agreeable flavor. Quality equal to California grapes which it very much resembles. Endures heat and drought. Ripens in August. No. 828.

RIPE IN SEPTEMBER

Thompson Seedless—Bunches very large; berries medium size, oval, greenish-yellow, seedless, fine flavor. Valuable for table, shipping or for making seedless raisins. No. 830.

BLACKBERRIES AND DEWBERRIES

The one sure crop berry for the South. You cannot buy good berries to eat. If you want them, you must raise them. Plant the following splendid varieties for sure results.

No. 872 **Austin**—Planted in Texas, more extensively than any other berry. Very reliable. Berry large, jet black, sweet and delicious and always makes a crop. Ripe in May and June.

No. 873 **Early Harvest**—This is one of the best early blackberries grown in the Southwest. It has a perfect flavor. No. 874 **McDonald**—This appears to be a hybrid of a blackberry and dewberry. Large and of good quality. Earliest of all blackberries and begins ripening very few days after the Austin dewberry.

No. 875 **Dallas**—This is one of the most sure of all blackberries and endures Texas climate well. Ripens after McDonald and before the Robison. Has rather drooping vine, thorny, very productive, medium size berry of fine quality.

(Note: At these new low prices no home in Texas should be without its berry patch.)

OTHER DEWBERRIES AND BLACKBERRIES

No. 877 **Haupt**—Cross between dewberry and blackberry. Strong grower, heavy bearer, fruit large, black and luscious. Especially adapted to South Texas, and the warmer sections.

No. 878 **Thornless**—This is a sport of the Austin Dewberry, bearing berries as large in size and in great quantity, quality of flavor about the same. Otherwise like the Austin except as the name indicates, it is without thorns, which makes it quite desirable.

No. 879 **Lucretia**—An extra fine berry for the Panhandle and the Northern part of Oklahoma, Kansas, etc. Berry large, black, sweet and luscious; an old standby.

No. 880—100 plants of 5 different kinds of Dewberries, Blackberries, and hybrids, so selected as to furnish you luscious berries from early spring until late in the season. We will send plants that are adapted to your locality, that you can depend on getting fruit from.

100 Plants, only..... \$125

NEW BOYSENBERRY

No. 881 **Immense New Boysenberry**—Cross between black-

berry, raspberry and loganberry. Large berry, 1½ inches long, 1 inch diameter, delicious flavor, resembling raspberry, very sweet and juicy, no sugar required. Bears 8 to 10 weeks during summer and fall. Will stand 15 degrees below zero. Very drought resistant. All in all, we think the largest and most delicious berry ever introduced. Does exceptionally well all over the South. Price, No. 1 strong plants, 19c each; 10 for \$1.25; 100 for \$8.50. No. 882 **Youngberry**—This remarkably productive new berry is about one inch long, dark purple color, with a delicious flavor of raspberry and dewberry. Very heavy bearer; plants produce year after planting. It is adaptable to all and any kind of soil.

STRAWBERRIES

Varieties we quote below are the best for the South. Select varieties so that you may have berries from April until killing frost.

No. 886 **Aroma**—(Standard). Perfect flowering. A splendid late berry; large, deep red, and of excellent flavor. The skin is somewhat tougher than the early varieties and the flesh is firm, making it a good market sort.

No. 867 **Improved Klondike**—(Standard). Perfect flowering. The leading variety for the Southwest. One of the earliest, a good producer, and valuable for market or for home.

No. 868 **Missionary**—The best berry for South Texas, South Louisiana, and the warmer sections of the country. Very prolific, good size, good quality and medium early.

No. 869 **Blakemoor**—The U. S. Department of Agriculture originated this berry. Twice as productive as Missionary

and Klondike; larger fruit, and excellent flavor. Fine for home use, and the most profitable berry for the South.

No. 870 **Excelsior**—The very earliest berry grown, and an unusually good berry for home use. Just tart enough to make excellent jelly and preserves.

FLOWERING TREES

In the long succession of colorful pictures that are presented in Southern Gardens, the most impressive are those provided in February, March and April by Flowering Trees. Blooming before the appearance of foliage, as most of them do, their clear tones of color afford boundless opportunities for the creation of lovely garden scenes. Their graceful branches are exquisitely beautiful, either spread against backgrounds of sober evergreens, or matching their

brilliant colors with beds of gay tulips, daffodils and other early flowers.

FLOWERING PEACHES

These flowering peaches are similar to fruiting peach trees, but are more dwarf growing. Flowers are very double, resembling small roses.

Pink Flowering Peach—Double, bright pink flowers. No. 9037—2 to 3 ft. No. 9038—3 to 4 ft. No. 9039—4 to 5 ft. **Red Flowering Peach—Double**, bright red flowers. No. 9040—2 to 3 ft. No. 9041—3 to 4 ft. No. 9042—4 to 5 ft. **White Flowering Peach—Double**, white flowers. No. 9043—2 to 3 ft. No. 9044—3 to 4 ft. No. 9045—4 to 5 ft.

Prices on above flowering peach. 2 to 3 ft. 35c each; 3 to 4 ft. 45c each; 4 to 5 ft. 60c each.

No. 9046 **Purple Leaf Plum** (*Prunus pissardi*)—Small trees with purplish-red foliage. Pink flowers in great profusion in early spring before foliage appears. Price, 4 to 5 ft. trees 60c each; 10 for \$5.50.

No. 4658 **Long-clustered Golden-chain** (*Laburnum Vossii*)—A small tree with green bark and foliage like exaggerated clover leaves. Flowers are pure golden yellow, and formed in long racemes like *Wisteria*. Very beautiful and still very rare. Price, 4 to 5 ft. trees, \$2 each.

No. 1106 **White Dogwood** (*Large flowering*)—A very distinctive and lovely shrub when in full flower. 3 ft. heavy plants, 49c each.

No. 1067 **Mimosa** or **Silk Tree** (*Albizia Julibrissan*)—One of the most handsome and ornamental of all flowering trees; tropical-like foliage with large flat rose colored flowers. Quite hardy. Price, 4 to 5 ft. trees, 65c each.

REDBUD

This lovely and popular shrub can now be bought at such reasonable prices that everyone should plant masses of them about their premises.

No. 1156—2 to 3 ft. 9c each; 10 for 80c; 100 for \$6.50. No. 1157—3 to 4 ft. 23c each; 10 for \$1.90; 100 for \$15.00. No. 1158—4 to 5 ft. heavy well branched, blooming size, 49c each; 10 for \$4.00.

MAGNOLIA

Magnolia Grandiflora (*Southern Magnolia*)—Majestic tree with large thick leaves of glossy green; beautiful white flowers with heavy fragrance. No. 9047—18 to 24 inches, \$1.00 each. No. 9048—2 to 3 ft. \$1.25 each. No. 9049—3 to 4 ft. \$2.00 each.

SHRUBS—FLOWERING AND ORNAMENTAL

No home is complete without some shrubs, vines, etc., planted around the premises. Houses without anything planted around them look cold, desolate and uninviting. The greatly reduced prices we offer on shrubs this year, with the long, full list we offer, will enable any homeowner to beautify his premises at a small cost.

No. 1064 **Almond Pink Flowering**—Dwarf growing, blooms very early. Pink flowers. Price, 18 to 24 inch, 49c. No. 1065 **Almond White Flowering**—Dwarf growing, blooms very early, white flowers. Price, 18 to 24 inch, 49c.

ALTHEA—BUSH ALTHEA

No. 1066 **Alplissima**—Double red.
No. 1067 **Anemoneaeflora**—Double pink.
No. 1068 **Ardens**—Double violet.
No. 1075 **Jean De Arc**—Double pure white.
No. 1076 **Rubis**—Single red.
No. 5000 **Totusalsub**—Single, pure white.

PRICES ON ABOVE ALTHEA

Strong, bushy 2 to 3 ft. plants that will bloom the first year, each 29c; 10 for \$2.75.
No. 1084 **Bird of Paradise**—A fast growing, profuse bloom-

ing shrub. Splendid for Southern planting. Has large yellow and red flowers, with striking gray-green foliage. Does well everywhere. Heavy blooming-size plants 39c each, delivered.

No. 1085 **Blue Spirea** (*Coryopteris Incana* or *Bluebeard*)—Lavender-blue flowers that bloom in August and September. Splendid for massing. 12 to 18 inch plants, 29c each; 10 for \$2.50.

No. 1088 **Butterfly Bush** (*Variety Magnifica*)—Graceful arching branches covered with lavender-purple flowers with yellow eyes. Price, 2-year No. 1 plants, 39c each; 10 for \$3.50.

No. 1089 **Butterfly Bush** (*Ile de France*)—Claret-purple, long stems. Excellent for cutting, best of all Butterfly bushes. 2-year No. 1 plants, 59c each; 10 for \$5.00.

No. 1091 **Coralberry**—Graceful, slightly drooping shrub; purplish-red berries all winter. Foliage lovely green all summer. One of the best low shrubs for planting near trees. Price, 18 to 24 inch, 19c each; 10 for \$1.70; 100 for \$15.00.

No. 1093 **Red Chokeberry**—A good shrub with fine green leaves. Gaily colored in autumn. White flowers and masses of red berries. Two-foot plants, heavy, 39c each; 10 for \$3.25.

GRAPE MYRTLE

This is the South's most beautiful shrub, reaching an ultimate height of 12 to 15 feet. Lovely fringed and ruffled flowers through summer and fall.

True Watermelon Red Grape Myrtle—A real bright red. Unusually attractive. No. 1095—12 to 18 inch; No. 1096—2 to 3 ft.

Pink Grape Myrtle—A clear bright pink, very lovely. No. 1097—12 to 18 inches. No. 1098—2 to 3 ft.

Lavender or Purple Grape Myrtle—A good clear lavender-purple, one that you will like. No. 1099—12 to 18 inch. No. 1100—2 to 3 ft.

White Grape Myrtle—Lovely white flowers in profusion throughout the season. A strong grower. No. 1101—12 to 18 inch. No. 1102—2 to 3 ft.

PRICES ON GRAPE MYRTLE

	Each	10	100
12 to 18 inch	\$.19	\$ 1.70	\$ 15.00
2 to 3 ft. well branched, heavy blooming size	.39	3.50	24.00

No. 1104 **Cydonia Japonica** (*Flowering Quince* or *Flowering Japonica*)—In early spring, 3 foot plants, heavy, 49c each. Before foliage appears. Our plants are fully grown, sure to bloom red. 12 to 18 inch plants, each 29c; 10 for \$2.25.

No. 1111 **Blood Twig Dogwood**—Dark green foliage, creamy white flowers, blue-black berries in fall, bright red bark lends cheer in winter. 3 foot plants, heavy, 49c each.

No. 1111 **Deutzia Double White**—Tinted soft rose. Very first to bloom in spring. 3 foot plants, 39c each.

No. 1112 **Deutzia Double Pink**—Same as above except lovely pink flowers. 3 foot plants, 39c each.

No. 1114 **Elder Golden**—Hardy rapid growing shrub. Bright golden yellow foliage. 2 foot plants, heavy, 39c each.

No. 1116 **Elaeagnus Augustifolia** (*Russian Olive*)—Very hardy shrub, gray-green foliage, fine for West Texas. 3 ft., bushy, 49c each.

No. 1122 **Golden Bell** (*Forsythia Intermedia*)—Early in spring, covered with profusion of deep yellow flowers. 3 ft. 39c each.

No. 1123 **Weeping Golden Bell** (*Forsythia Suspensa*)—Yellow flowers, gracefully drooping branches. 3 ft. 39c each.

No. 1131—**Hydrangea** (*Snowhill*)—Double white ball-shaped flowers in profusion in May. Bushy 2 ft. plants, 49c each.

No. 1132 **Hydrangea** (*Paniculata Grand*)—Very showy cone-shaped flowers, tinted pink. Strong 2 ft. plants, 49c. We call particular attention to the size of our shrubs. They are specimen size ready to bloom.

No. 4674 **Pink Jasmine** (*Jasminum Stephenense*)—A new Jasmine with very fragrant light pink flowers. 1 inch in diameter. Hardy to Washington. D. C. Price, 18 to 24 inch plants, 45c each; 10 for \$3.75.

No. 1138 **Winter Jasmine**—Graceful, low spreading shrub; bright yellow flowers in late winter. 2 ft. bushy, 49c each.

No. 1143 **Lilac**, **Common Purple**—This variety is generally

- grown everywhere and does well. 3 ft. plants, heavy, 39c each; 10 for \$3.50.
- No. 1144 Lilac White—Like the above except pure white. 3 ft. heavy plants 39c each; 10 for \$3.50.
- No. 1145 Lilac Chinese (*Syringa Rothomagensis*)—Broad large clusters of deep rich rose flowers. Makes very showy specimen. Price, 2 ft. bushy plants, each 59c; 10 for \$5.00.

MOCK ORANGE — (PHILADELPHUS)

- Hardy long-lived shrubs. Lovely white flowers that add distinction to any garden.
- No. 1149 Grandiflora—Very large white flowers in May.
- No. 1150 Virginal—Large white flowers, yellow stamens, sweet scented.

PRICES ON ABOVE MOCK ORANGE

- 3 ft. bushy plants, 39c each; 10 for \$3.50
- No. 1154 Red Flowering Pomegranate—Clean dark green foliage, blood red flowers followed by large red fruit. Strong 3 ft. plants, 39c each; 10 for \$3.50.
- No. 1159 Rose Acacia—This charming shrub is very popular because of its abundance of large, pink pea-like flowers. Grows 6 to 10 feet tall. Price, 2 to 3 ft. heavy, 39c each.
- No. 1161 Smoke Tree—Called Purple Fringe by many people. Much admired for its curious fringe of hair-like flowers that cover plant entirely in summer. Price, 2 to 3 ft. heavy plants, 39c each.

SNOWBALL

- This lovely plant may be grown in the South if you buy strong, heavy bushes. The small bush is difficult to make grow.
- No. 1162 American Snowball—The old-fashioned Snowball that flowers so abundantly. Blooms in April. 3 ft. heavy plant, 49c each; 10 for \$4.50.
- No. 1163 Japanese Snowball—Large, pure white double flowers of globular form, much improved over common snowball. Price, 18 to 24 inch, heavy plants, 49c each.
- No. 1164 Snowberry—Rose colored flowers in June, followed by large white berries. A very graceful plant, 2 ft. bushes 39c each; 10 for \$3.50.

SPIREA

- There are many different varieties and colors of Spireas suitable for planting under all conditions. Below we list the best for blooming in the South and believe you will find these very satisfactory.
- No. 1165 Crimson Spirea (Anthony Waterer)—Dwarf growing shrub with crimson red flowers. Very ornamental.
- No. 1167 Bridal Wreath—The true old-fashioned Bridal Wreath so much planted and admired in old-time gardens.
- No. 1169 Thunberg Spirea—Graceful arching branches covered with small pure white flowers. Very first to bloom in the spring.
- No. 1170 Van Houtte Spirea—Graceful plants with abundance of snowy white flowers in clusters.
- Prices on above Spirea, 2-year Specimen Fine Plants for immediate results: Each 39c; 10 for \$3.50.
- No. 1172 Fragrant Sumac—Low splendid bush, clusters of small yellow flowers and coral red berries. Very fragrant. 3 ft. plants, 39c each; 10 for \$3.50.
- No. 1173 Sweet Shrub (*Calycanthus Floridus*)—Dark green foliage, chocolate colored flowers in early spring. 2 ft. plants, 39c each; 10 for \$3.50.
- No. 1174 Tamarix Aestivae—rose pink flowers, gray-green foliage. The best of all. Price 3 ft. bushy plants 39c each, 10 for \$3.50.
- No. 1178 Vitex Improved Chaste Tree—Deep blue flowers borne in profusion throughout the summer. Stand drought well. 4 ft. plants 39c each, 10 for \$3.50.
- No. 1180 Wafers Tree (*Viburnum Lantana*)—Attractive shrub with white flowers in May followed by red berries. Price, 2 ft. plants, 39c each; 10 for \$3.50.
- No. 1183 Red Weigela (*Eva Rathke*)—Rich ruby red flowers. Blooms in spring and again in the fall. 3 ft. bushy plants, 49c each; 10 for \$4.00.
- No. 1184 Pink Weigela—Showy rose pink flowers. Produces freely. 3 ft. bushy plants, 39c each; 10 for \$3.50.
- No. 1082 Red Leaved Barberry—A highly desirable decorative

- evergreen with blood red foliage; very choice. Strong 2 ft. plants, 59c each.
- No. 1083 Kerria Japonica—Attractive flowering shrub, with pure deep yellow flowers about the size of small roses. Price, strong 2 ft. plants, 59c each.
- No. 1086 Exochorda (Pearlshrub)—Beautiful shrub with light green foliage, pear-like buds, open into pure white fragrant waxy flowers. Price for 2 to 3 ft. plants, each 49c.
- No. 1090 Hypericum (Golden St. John's wort)—Dark glossy foliage, bright yellow flowers about size of silver dollar in July. Price 18 inch plants, 49c.
- No. 1091 Kolovitzia (Rueyebush)—Shrub of graceful habit, with funnel shaped pink flowers in profusion. 2 ft. plants, heavy, 49c each.

FRENCH LILACS

- The new French Hybrid Lilacs we offer are a great improvement over the old varieties. Our list is selected to give as great variation in type and color as possible; each variety is outstanding in its class. Price each, 2-year grafted plants, 18 to 24 inches, each 65c.
- No. 9050 Alphonse Lavalle—Double light purple.
- No. 9051 Edouard Andre—Double pink.
- No. 9052 General Pershing—Double light blue.
- No. 4690 Jan. Van Tol—Single white, individual flowers and clusters, very large.
- No. 4691 Leon Gambetta—Purple to pinkish-lilac, double.
- No. 9053 Lucy Baltet—Single reddish pink.
- No. 9054 President Grevy—Double soft violet.
- No. 9055 William Robinson—Double deep purple.
- One each of the above eight fine varieties for only \$4.00.
- No. 1360 Pampas Grass—This is the true Argentine Pampas Grass that does so well all over the South, but is not hardy north. Lovely foliage, beautiful long silvery plumes. Price 1-year small divisions, 24c each; 10 for \$2.15.
- No. 1361 Pampas Grass—Same as above except heavy clumps for immediate effect. Each 45c; 10 for \$4.00.

HEDGE PLANTS

The hedge is more than its own excuse for being; it justifies its existence in various ways. Around the small yard of a cottage or the formal terrace of a city home, the Amur River Privet, or Arborvitae can be trimmed and kept in scale with the size of the lawn. If there is an ill-kept lot adjoining, or the sun room is near the street, then let your Amur hedge grow rankly.

A hedge may serve to shield from view the chicken yard or the family wash, or suggest to the children that the playhouse yard must end where a neighbor's lawn begins.

Amur River Privet (*L. Amurensis*)—Most popular and best hedge for the South. Very beautiful evergreen, dense in growth, dark in one year. Very hardy and well adapted to general planting. Exceedingly beautiful and permits shearing to any height or shape.

Price, strong plants:	10	50	250
No. 1185—12 to 18 inch	\$.45	\$ 2.00	\$ 9.00
No. 1186—18 to 24 inch	.60	2.75	11.75
No. 1187—2 to 3 ft.	.90	4.00	17.50

California Privet—This beautiful hedge plant has a larger leaf than Amur Privet, and is very beautiful in summer and fall, lending itself admirably to shearing. However, we do not consider it as useful for planting in the South as Amur River because it loses some of its foliage in the winter, whereas, Amur River Privet will look pretty the year round.

Price:	10	100
No. 1188—18 to 24 inch	\$.70	\$ 6.00
No. 1189—2 to 3 ft.	.90	8.00
No. 1194 Lodense Privet—This is a dwarf, compact hedge plant evergreen, suitable for low hedge, edging, cemetery lots, etc. May be sheared any form, but forms a natural compact plant without any attention. 6 to 9 inch plants, 12c each; 10 for \$1.10; 50 for \$6.00.		
No. 9065 Truedarff—Box or small tree. Leaves usually oval. Commonly used for hedges. Price, 8 to 10 inch plants, 65c each; 10 for \$5.75.		

FRENCH HYDRANGEA

This is the Hydrangea with large flower heads in pink, blue or red, so widely planted throughout the South. Nothing makes a more beautiful flowering plant, and they are very long-lived. Price each, for two-year field grown plants that have bloomed this past season in the field, 65c each; 10 for \$5.00.

No. 4707 Otaksa—Lovely pink, one of the most popular.

No. 4708 Trophee—Red, a distinct clear color.

No. 9057 Goliath—Truly a giant. Blues fine.

BURKWOOD VIBURNUM

No. 4710 Burkwood Viburnum—This is probably the most valuable novelty in the flowering shrubs that has appeared for several years. This is a very hardy evergreen shrub, hardy to Canada, an improvement of Viburnum Carlesii. Attains height of six to seven feet, bearing very fragrant white flowers, tinted pink, in large heads 4 inches broad, and containing as many as 250 individual flowers. Plant has rich, glossy-green foliage, turns purplish bronze in winter. An outstanding evergreen blooming shrub that has everything. Price, 12 to 15 inch, balled and burlapped, plants well branched, \$2.50 each, postpaid.

AZALEAS

Azaleas, contrary to general belief, are by no means hard to grow, provided certain requirements are fulfilled. They may be grown without difficulty in all Gulf Coast regions, and the Atlantic Coast, as far north as North Carolina. The following varieties are the outstanding ones of their color:

No. 4620 Pride of Mobile—Lovely watermelon pink, flower very large. Large leaves, vigorous grower, one of the very best.

No. 4621 Pride of Dorking—Brilliant cerise red, a clear, striking, pure red; compact grower.

No. 4622 Prince of Orange—Flower large, dark orange red. One of the richest colored of all Azaleas.

No. 4623 Gulf Pride—Flower medium to large, and a most charming light purple color; very hardy and stands cold exceptionally well.

No. 4624 Rosy Purplea—Wine red color; a magnificent, outstanding variety.

No. 9064 Flag of Truce—Full double white with waved petals; a dazzling beauty.

No. 4625 Criterion—White ground, well marked with wide pink stripe.

PRICES ON ALL AZALEAS

	Each	10
10 to 12 inch, 2-year plants, with buds, balled and burlapped.....	.95	\$ 8.50
18 to 24 inch, 3 to 4-year plants, with buds, balled and burlapped.....	1.90	17.50
Guaranteed to live—delivered at above prices.		

INSTRUCTIONS FOR GROWING AZALEAS

1. Provide acid soil, use plenty of leaf mold (oak leaves most desirable), pond muck or peat moss.
2. Lime or alkaline soil is poisonous; remove such soil to a depth of two feet and fill in with acid soil, about one third each leaf mold, good loam and peat moss. To this, add one 4 inch pot of Aluminum Sulphate to wheelbarrow of soil.
3. Keep well watered always; spray foliage often.
4. Provide good drainage; fill in bottom of bed 10 inches with crushed brick, steel shavings, scrap iron, old bones, etc.
5. Fertilize lightly, or not at all, using Vigoro or well decayed cow lot fertilizer in small amounts.

CAMELLIA

Also known as "Japonica" in the South. Similar in climatic and soil requirements to Azalea. Flowers of great beauty, fully double.

No. 4626 Alba Pleno. One of the best and most widely known Japonicas; fully double, large pure white.

No. 9058 Moss Point Variegated—Pink and white variegated peony-form flower. Flower ball-shaped or globular. A rapid grower, with large glossy, dark green leaves.

No. 9059 Pink Perfection—The most universally popular of all camellias. The medium-sized double wax-like flowers, of perfect symmetry and exquisite texture, are a delicate shell pink. Blooms profusely from November to March, and begins blooming when quite young.

No. 4630 Prof. Sargent—Fully double, peony-form; color dark red. Glossy, round, thick leaves. An outstanding beauty.

Prices on all above varieties of Camellias: 12 to 18 inch plants from 4-inch pots, each \$1.25; 10 for \$10.00.

GARDENIA, OR CAPE JASMINE

The Cape Jasmine so well known and loved throughout the South is the Gardenia Florida. Gardenia Veitchii is the Florists Gardenia, but may be grown outdoors everywhere that Gardenia Florida thrives, but is not quite so hardy. Prices and descriptions follow:

No. 4630 Gardenia Florida (Cape Jasmine)—Hardest of all Cape Jasmines. Flowers are large, pure white, highly scented. Dark green, glossy leaves. Price for 12 to 18 inch plants, balled in moss, 45c each; 10 for \$3.90.

No. 4631—Price for 2 ft. bushy, field grown plants, balled and burlapped, \$1.50 each.

No. 4632 Gardenia Veitchii—The most lovely of all Gardenias, and the variety most generally grown in greenhouses for floral work. Flower is pure white, fully double, and will stay white for a long time. Begins flowering when very young; blooms more or less throughout season. Price for well pinched plants from 5-inch pots, 12 to 15 inches tall, \$1.25 each.

HOLLY

All Hollies are hard to transplant, so we are, beginning this year, offering only well pot-bound plants from 3-inch pots. They are sure to live and will grow right off.

No. 4633 American Holly (Ilex Opaca) Grown from grafts taken from known berry-bearing plants, guaranteed to bear berries. Price, 8 to 12 inch plants from 3-inch pots, 55c each.

No. 5001 Yucca Holly (Ilex Vomitoria)—Our plants propagated strictly by cuttings from known berry-bearing plants. 6 to 8-inch plants from 3-inch pots, 49c each.

CLIMBING VINES

Below we present a complete list of the best climbing vines for use in the South and Southwest. The beauty of any home may be greatly increased by the careful use of these climbing vines.

No. 1196 Bignonia Radicans (Trumpet Vine)—Trumpet-shaped flowers in summer. Blooms persistently, very hardy. Price 39c each.

No. 1201 Boston Ivy (Ampelopsis Veitchii)—A vine that covers with overlapping foliage; self-clinging and will adhere closely to the smoothest surface. Leaves a deep green changing to crimson and yellow in autumn. When once established requires no further care. Ideal for planting on stucco and brick walls. Price 2-year plants 45c each.

No. 1202 Carolina Jasmine—This beautiful evergreen climbing vine has bright green foliage the year round, and is covered in the early spring with sunflower yellow flowers about the size of a 25c piece; of wonderful fragrance. If you have never tried this splendid climbing evergreen there is a rare treat in store for you. 2-year plants, heavy, 69c each.

LARGE FLOWERING CLEMATIS

This is the aristocrat of all climbing vines, and in our opinion, nothing is more beautiful than Clematis Jackmanii in full bloom. Every homeowner should plant a few of these large flowering Clematis.

No. 1204 Jackmanii—Deep velvety purple flowers, large size.

No. 1205 Henry—Creamy white flowers.

No. 1206 Mme. Edouard Andre—Large crimson red flowers.

No. 1207 Ramona—New novel light blue.

Two-year blooming size plants, each 79c; 5 for \$3.50.

No. 1210 Clematis Paniculata (Sweet-scented Clematis)—Flow-

ers small, star-shaped; white in color and produced in enormous quantities. Very fragrant and easily established. 2-year, heavy plants, 39c each.

HONEYSUCKLE

This old favorite still retains its deserved popularity. It is evergreen in the South. Makes a good climbing vine or can be used as a screen or a hedge. Delightfully fragrant flowers.

No. 1214 Hall's (Lonicera Halliana)—Strong growing honeysuckle that is almost evergreen. Its flowers are white changing to yellow and very fragrant.

No. 1215 Scarlet Trumpet (Lonicera Sempervirens)—A brilliant variety with trumpet-shaped flowers of bright scarlet. Valuable for use on porches and trellis. Prices on above Honeysuckle. Each 29c; 10 for \$2.75, postpaid.

No. 9060 Gold Flame Honeysuckle—Everblooming trumpet-shaped flowers. Fragrant, bright red outside, yellow inside. Hardy. Price for 2-year No. 1 plants, each 65c; 10 for \$5.95.

No. 1220 Kudzu Vine—The strongest growing climber we know of. It will grow 60 ft. in one season. Has no equal for covering large space in short time. Price strong 2-year plants, 39c each.

QUEENS WREATH

One of the loveliest climbing vines for the whole South and will stand zero weather. Grows fast, affords dense shade, and in the fall is covered with a mass of glowing rose-pink flowers of rare beauty. Dies down each year, but comes back stronger the next.

No. 1226—1-year plants, 19c each; No. 1227—2-year strong plants, 29c each; No. 1228—3-year extra heavy plants, 39c each.

No. 1229 Virginia Creeper (Ampelopsis Quincefolia)—Large green leaves changing to crimson in the fall. Requires no support and is suited for covering tree trunks and walls. Price each 29c.

SHADE TREES

Here in the South and Southwest, where the sun does get hot, shade trees are a necessity. We are showing varieties best suitable for all locations, climates and purposes.

NEW LOW PRICES ON SHADE TREES

New low prices on shade trees shown in this catalog will enable every homeowner to beautify his premises and provide ample shade at a very small cost. We call your attention to the small trees we offer. It will take them a year or two longer to make up as large as the larger ones we show, but they do transplant easily, and they are inexpensive.

ARIZONA ASH

One of the most beautiful of all shade trees. Clean growth holds foliage until nearly Christmas, no leaf-littered lawn. Trunk very straight, foliage dark green, very glossy and beautiful. Recommended for extensive planting in Gulf States. Unexcelled for West Texas, New Mexico, Panhandle and Western Oklahoma planting. El Paso has adopted this tree as the universal street tree.

No. 9061—Size 2 to 4 ft. 50c each; 10 for \$4.75. No. 9062—Size 4 to 5 ft. 65c each; 10 for \$6.00. No. 9063—Size 5 to 6 ft. 85c each; 10 for \$7.75. No. 9063—Size 6 to 8 ft. \$1.15 each; 10 for \$9.50. Postpaid.

No. 1240 White Birch—A picturesque native shade tree, white bark with dark green leaves that turn yellow in fall.

No. 1244 Box Elder—Grows rapidly into large spreading tree. Makes fine shade trees and valuable as shelter-belt planting in West and Southwest. Withstand heat and cold. Price, 6 to 8 ft. heavy branched trees, 85c each; 10 for \$7.00.

No. 1245 Western Catalpa—Conspicuous because of its large, broad leaves and massive panicles of white, fragrant flowers. Extensively used for timber plantings. As the

wood is very enduring in the ground, it makes fine fence posts, and should be planted on every farm for this purpose. 6 to 8 ft. heavy 95c each; 10 for \$8.00.

No. 1246 Umbrella Catalpa (Catalpa Bungei)—Foliage large and glossy. Top-grafter on tall stems it forms a perfect umbrella shaped head and makes an effective tree for formal planting. Price 2-year head, 5 to 6 ft stem \$1.65 each.

No. 1250 White Dogwood—This is the large flowering white Dogwood in tree size for immediate effect in landscapes. Size 6 to 8 ft. Well branched \$1.00 each.

ELM—American White. The noblest spreading, dense tree of our woods. One of the grandest and hardest for park or street trees. No. 1252—3 to 4 ft. each 19c; 10 for \$1.50; 100 for \$12.50. No. 1253—6 to 8 ft. Well branched, each 65c; 10 for \$5.50.

It takes lots of hard work to plant and care for trees. Plant good stock for best results. We pay transportation charges on everything shown in this catalog, be sure to figure this in when comparing prices.

CHINESE ELM BARGAINS

From one of our most reliable sources, we offer these Chinese elm. They are straight, having been grown in wide rows and thinned out in row, to develop fairly well finished tops. All have been root pruned to develop a branched root system. Graded by diameter and height. These are grown in the North entirely out of the root rot section. We think you will like them.

	Each	10	100
No. 4719—4 to 5 ft. height, $\frac{1}{2}$ to $\frac{3}{4}$ inch diameter	\$.45	\$3.75	\$30.00
No. 4720—6 to 8 ft. height, $\frac{3}{4}$ to 1 inch diameter	.65	5.50	45.00
No. 4721—8 to 10 ft. height, 1 inch diameter	.95	8.25	65.00
All delivered and guaranteed to live.			
No. 4722 Hackberry—3 to 4 ft. straight young trees, healthy and thrifty grower. Price, 29c each; 10 for \$2.25; 100 for \$17.50.			
No. 4723 Black Locust (Honey Locust)—4 to 5 ft., 25c each; 10 for \$1.95; 100 for \$16.00.			

MAPLE

No tree is so lavish in its beauty, and few, if any, are so valuable for shade trees, ornamental trees, etc. Plant them liberally for shade and ornament.

No. 1722 Norway Maple—Size 6 to 8 ft., \$1.25 each.
No. 4724 Purple Leaf Maple (Schwelder)—Very popular because of reddish-purple leaves in spring. 5 to 6 ft. trees, \$1.15 each.

No. 1279 Russian Mulberry—A very hardy drought resisting tree that will thrive and make excellent shade in the driest sections of the country. Size 5 to 6 ft., 57c each; 10 for \$5.00.

No. 1286 Boleana Poplar—Rapid growing columnar tree with silvery foliage. 6 to 8 ft., each 95c.

No. 1287 Carolina Poplar—Rapid grower, succeeds over wide territory. A lovely shade tree, 4 to 5 ft., 29c each; 10 for \$2.50.

No. 1288 Carolina Poplar—8 to 10 ft., 85c each; 10 for \$17.50.

No. 1289 Lombardy Poplar—Tall, slender, columnar tree, excellent in landscape work. 4 to 5 ft., each 24c; 10 for \$2.00. No. 1290—10 ft. trees, each 95c; 10 for \$8.50.

No. 1291 Silver Poplar or White Poplar—Good shade trees for dry sections. Dense spreading tree, leaves woolly white underneath. 4 to 5 ft. 24c each; 10 for \$2.00.

No. 1292 Silver Poplar—6 to 8 ft. Price, each 65c; 10 for \$5.50.

No. 1293 Redbud—Tree type, splendid large trees, 6 to 8 ft. for immediate effect. Price, each \$1.35; 10 for \$12.00.

No. 1299 Sycamore (Platanus Occidentalis)—Also called American Plante or Buttonwood. Upright, shapely and beautiful. Price, 6 to 8 ft. heavy well-branched trees, 89c each; 10 for \$8.00.

China Texas Umbrella—A dense spreading canopy topped tree which does not attain great height but with wide-spreading branches. Fragrant purple flowers are borne in spring. Followed by numerous creamy yellow berries. No. 1302—3 to 4 ft., 24c each; 10 for \$2.00. No. 1303—5 to 6 ft., 79c each; 10 for \$6.75.

EVERGREENS AND OTHER ORNAMENTAL SHRUBS

The list of Ornamental Evergreens we offer is quite complete; varieties for every section in the South, Southwest and Gulf Coast sections. The plants we list are young stock, full of life and vigor. They are shipped balled in damp sphagnum moss. Plant carefully after received. Remove moss before planting. Water well. Stake to keep wind from blowing plants around. You will get a lot of pleasure and satisfaction watching these young plants grow and develop into lovely specimens. The five best plants for general beautification of home, we think, are as follows: Bakers Arborvitae, Pfitzer Juniper, Yellow Jasmine, Abelia, Waxleaf Ligustrum. These should be planted around the house as foundation planting. Arizona Cypress is the best all around evergreen to plant on the lawn as specimen, or for background.

ABELIAS

No. 4751 *Abelia Grandiflora*—This is the old, well-known Abelia that is so useful in landscape work, and so generally planted throughout the South. 12 to 18 inch plants, bushy, 45c each; 10 for \$3.75.

ARBORVITAE

These symmetrical, compact, hardy evergreens are the most useful, ornamental and dependable plants in the Southern landscape. They will thrive in our climate.

No. 4771 *Baker's Arborvitae*—For a tall, pyramidal, symmetrical evergreen, this is the best one for the South. Plant at entrances, in background of other lower growing evergreens, as lawn specimens, etc. Price, 12 to 18 inch, each 49c.

No. 1372 *Berkmans Golden Arborvitae*—A dense, cone shaped medium height evergreen with green and gold foliage. Used extensively in Southern plantings. Price, 12 to 14 in., 49c each.

No. 1375 *Globe Arborvitae*—This is a dwarf, round dark green dense foliage, evergreen. Used for planting in front of higher evergreens, also in urns, and in cemetaries. Price, 8 to 12 inch plants, 49c each.

No. 1383 *Red Leaved Barberry*—The leaves intense purple-red. Outstanding accent plant. Evergreen in the South. 12 to 18 inches, 39c each.

No. 1388 *Cape Jasmine*—Lovely dark green, glossy foliage, and pure white flowers of delightful fragrance. This variety will stand zero weather. Produces flowers throughout summer. This is the florist's *Gardenia*. Price, strong 12 to 18 inch plants, 39c each; 10 for \$3.40.

No. 1389 *Cedrus Deodara*—(Himalaya Cedar)—This is one of the most beautiful and stately of all evergreens. Light green feathery foliage, slightly drooping. Fine specimen, or lawn evergreen. Price, 12 to 15 inch plants, 69c.

No. 1390 *Cherry Laurel*—A very hardy, rather large growing ever-growing evergreen. Bright green foliage, white flowers in spring followed by black berries. Price, 12 to 18 inch plants, 39c each.

No. 1392 *Cotoneaster Pannosa*—Known as Silverleaf Cotoneaster. Leaves light green on top, silvery gray beneath. White blossoms in spring, red berries in fall and winter. Hardy. Price, 49c each.

No. 1394 *Arizona Cypress*—Large, fast growing evergreen, with silvery gray foliage. May be pruned to taste. The most hardy, dependable evergreen for the South, Southwest and the West. Price, 12 to 18 inch plants, 69c each.

No. 1395 *Italian Cypress*—Tall, symmetrical, stately evergreen of picturesque beauty. Plant against tall buildings, at corners, against chimneys, columns, etc. Price, 2 to 3 in., 95c each.

No. 1396 *Elaeagnus Pungens*—Foliage bronzy-green on top, silver beneath. Yellow flowers in spring, plum-shaped fruits; sometimes in abundance, and fine for jelly. Price, 12 to 18 inch plants, 49c each.

No. 1407 *Euconymia Japonica*—Twelve dark green glossy leaves. Very dense, and may be sheared to suit. Planted as low hedge, or as specimens. A fine plant for the South. Good 12 to 15 inch plants, 39c each; 10 for \$3.40.

No. 1400 *Lelands Firethorn*—A mass of white flowers in spring, followed by orange-red berries in profusion. A very lovely shrub for background specimen or planting in masses. 12 to 15 inch plants, 39c each.

No. 1407 *Yellow Jasmine*—Lovely dark green dense foliage, masses of tiny yellow flowers. Branches gracefully drooping. Stands heat and cold, drought and wet weather. The A-No. 1 outstanding evergreen of the whole South in our opinion. Price, 15 to 18 inch plants, 39c each.

No. 1410 *Pfitzer Juniper* (Spreading Juniper)—A medium low, flat growing Juniper, gray-green foliage. This is the Juniper you see planted so generally in all landscape plantings, and in our opinion it is the finest of all Junipers. Price, 10 to 12 inch plants, 59c each; 10 for \$4.75.

No. 1411 *Savins Juniper*—Like Pfitzers above, except bright green foliage. Price 10 to 12 inch plants, 49c each.

No. 1413 *True Lavender* (English)—This is the true Lavender, leaves gray-green, blue flowers. Leaves aromatic and strongly scented. Most recent plant in any planting. Price 12 inch plants, 55c each.

No. 1415 *Ligustrum Golden California*—Upright growing broad-leaf evergreen, with thick dark green leaves with golden markings. Price, 12 to 15 inch plants, 39c each.

No. 1416 *Ligustrum Japanese*—This is the best large growing broad-leaf evergreen. Has thick dark green leaves, large and dense. Best for high hedge, screens, or lawn specimen. Price, 2 to 3 ft. plants, 49c each.

No. 1417 *Ligustrum Lodense*—A low dense growing evergreen suitable for low compact hedge or may be sheared into specimen plants, 9 to 12 inch plants, 29c each; 10 for \$2.50.

No. 1418 *Ligustrum Waxleaf*—Thick, heavy dark green leaves, very compact growth, white blossoms, black berries. No landscape planting complete without this. Price, 12 to 15 inch plants, 49c each.

No. 1424 *Mahonia* (Oregon Grape)—Dark, lustrous holly-like foliage turns crimson in late fall. Very hardy. Price 10 to 12 inch plants, 79c each.

No. 1426 *Nandina*—An erect shrub, with several cane-like stems, finely cut foliage, turning to red in autumn. White flowers, followed by bright red berries. The best red-berried plant for landscape work, and favorite everywhere. Price, 8 to 12 inch plants, 39c each.

No. 1427 *Nandina*—Same as above. Large, nice bushy plants, 12 to 15 inches, 79c each.

No. 4756 *Photinia Serotina*—A large shrub with rounded form, evergreen, glossy green leaves, turning vivid red in fall and lasting through winter. Small white flowers in great profusion in early spring. Price, 1 to 1½ ft. plants from 1-gal. cans, 75c each.

No. 1437 *Red Cedar*—These are compact little plants well-developed, and you can grow them on and prune them as you like. Price, 12 to 15 inch plants, 49c each.

No. 1442 *Texas Ash Plant* (*Leucophyllum Texana*, or *Senisa*). Small oval leaves, ash-gray or silver color. Profusion of lavender colored flowers after each rain. One of the most outstanding shrubs that has been introduced in a number of years. Price, 12 to 15 inch plants, 89c each.

ROSES — HOW TO SUCCESSFULLY GROW THEM

- (1) Buy from a reliable source.
 - (2) Avoid buying "cheap roses." You will be disappointed.
 - (3) Cut rose bushes back to 9 inches when planting.
 - (4) Do not mix any fertilizer with soil.
 - (5) Mound dirt up on bushes when planting; let stay about five days, and remove dirt.
 - (6) Buy those roses known as Monthly blooming, or Everblooming, for Southern growing.
 - (7) Put fertilizer on top of ground in late winter. (Well decayed cow manure fertilizer is best.)
 - (8) Keep roses well watered, not sprinkled.
 - (9) Spray with sulphur to keep down black spot; and spray with Black Leaf 40 to keep down green lice.
- If you will follow these directions you can grow good roses, with good strong, long stems.

SPECIAL NOTICE—You will be besieged with advertising of all sorts. Newspaper, catalog, radio, etc., offering roses for such ridiculous prices as ten for a dollar, postpaid. If you fall for this kind of advertising, you can expect no results; your good judgment should tell you that no reliable firm can sell you ten or a dozen roses for \$1.00 and pay transportation, and send you stock that you will be satisfied with.

TEA AND HYBRID TEA BUSH ROSES

These represent the monthly, or everblooming varieties, and should be planted almost exclusively South of the Mason and Dixon Line, as well as in most sections of the North and East. Only in those sections where winters are exceptionally severe should other types be planted.

- No. 6506 Ami Quinard—Almost as black as Nigrette, and a better bloomer.
- No. 6509 Autumn—Burnt orange, streaked red. Rare color combination.
- No. 6512 Betty Upchurch—Large salmon-pink, reverse carmine with copper.
- No. 6517 Briarcliff—Fine deep rose-pink. Best outdoor cut flower variety.
- No. 6518 Caledonia—Pure white, long bud; splendid cut flower variety.
- No. 6527 Condesa De Sastago—Flery copper inside, reverse rich gold.
- No. 6535 Dame Edith Helen—Large, pure glowing pink. One of the best.
- No. 6539 Doty—Deep golden yellow, tinted bronze. Very lovely.
- No. 6545 Duquesa De Panaranda—Cinnamon peach; rare color combination.
- No. 6547 Edith Nellie Perkins—Salmon pink, flushed orange. Extra good.
- No. 6548 Editor McFarland—Solid glowing pink strong grower. Radiance type.
- No. 6556 Etolde De Hollande—Bright red, most popular red rose.
- No. 6570 Golden Rapture—A pure, clear yellow without tints.
- No. 6577 Heinrich Gaede—Magnificent copper-orange. Stunning.
- No. 6590 J. J. L. Mock—Very large, two-toned pink, an old favorite.
- No. 6596 Kaiserin Aug. Viktoria—Creamy white, profuse bloomer.
- No. 6602 Lady Hillington—Long pointed bud of deep apricot. Dependable.
- No. 6604 Lady Margaret Stewart—Golden yellow, streaked orange and red.
- No. 6611 Los Angeles—Unfading, luminous coral-pink; one of the best.
- No. 6617 McGredy's Scarlet—Brilliant scarlet, orange base.
- No. 6624 Margaret McGredy—Orange scarlet that does not fade.
- No. 6629 Mev. G. A. Van Rossem—Glowing apricot, streaked bright rose.
- No. 6631 Miss Cynthia Forde—Brilliant, deep rose pink, fine for deep South.
- No. 6632 Miss Rowena Thom—Enormous flower, fiery rose old gold.
- No. 6633 Miss Willmot—White, cream tint and flesh, perfectly formed.
- No. 6637 Mme. Edouard Herriott—Coral red, shaded yellow at base. Odd color.
- No. 6643 Mme. Nicholas Ausseil—Salmon, carmine and yellow. Exhibition variety.
- No. 6647 Mrs. Dudley Cross—Chamois rose, tinted yellow. Fine for South.
- No. 6654 Mrs. Pierre S. Dupont—Deep golden yellow, edged carmine. Choice.
- No. 6672 President Hoover—Cerule blue, scarlet and yellow. Old favorite.
- No. 6675 Radiance Pink—Still the best all-around pink for all locations.
- No. 6676 Radiance Red—The best all-around red; thrives and blooms everywhere.
- No. 6677 Salmon Radiance—A salmon-rose, like the above two indispensable.
- No. 6682 Rev. F. Page Roberts—Coppery yellow, red tints, lovely form.
- No. 6692 Roslyn—Pure solid golden yellow; one of best yellow roses.
- No. 6693 Rouge Mallerin—Large, intense scarlet, well imbricated. Lovely red.
- No. 6700 Senior—Best light red cut flower; urn shaped buds.
- No. 6706 Souger Therese—Lovely clear yellow, long stem, fine cut flower.
- No. 6707 Southport—Our idea of the finest red rose ever in-duced.
- No. 6708 Souv. De Alex Bernalx—Brilliant unfading red; largest red of all.

- No. 6712 Sunst—Lovely, long-pointed creamy yellow. Improved Joanna Hill.
- No. 6714 Talisman—Old gold, bright rose, and yellow. Fine old variety.
- No. 6721 Willomere—Rich shrimp pink, shaded primrose. A lovely rose.

Prices on above Tea and Hybrid Tea Bush Roses, No. 1, 2-yr. Field Grown Plants. Each 29c; 3 for 75c; 10 for \$2.35; 25 for \$5.45; 100 for \$21.00.

No. 1044—12 Plants—SOUTHERN BEAUTY ROSE

COLLECTION—12 Plants

We are often asked to name the 12 best roses for the South, and the following varieties, we think, are the 12 best:

- | | |
|-----------------------------|------------------------------|
| BETTY UPCHURCH | LOS ANGELES |
| BRIARCLIFF | MRS. PIERRE S. DUPONT |
| CONDESA DE SASTAGO | MRS. SAM MCGREY |
| CALEDONIA | PRESIDENT HOOVER |
| EDITH NELLIE PERKINS | SUNKIST |
| HEINRICH GAEDE | SOUTHPORT |

The above 12 plants for only \$2.85, postpaid.

HYBRID PERPETUAL ROSES

Some of our best known varieties come under this heading. They are harder than the TEA and HYBRID TEA, and the blooms are fine and large, and they seem to live longer. Most of them bloom only in the spring, and again in the fall. We heartily recommend them for colder climates, and to our customers who do not have time to give too much time to their roses.

- No. 6500 American Beauty—Pure deep rose (true variety) long stem.
- No. 6851 Bagness Rothchild—Large, fully double soft rose.
- No. 6857 Fisher Holmes—Warm, velvety crimson, on long, strong stem.
- No. 6560 Frau Karl Druski—Immense, large snowy white, steady bloomer.
- No. 6564 General Jacqueminot—Clear red, long stem, free bloomer.
- No. 6634 Mme. Albert Barbier—Soft fawn yellow, fine form.
- No. 6655 Mrs. R. G. Sharman—Crawford—Deep rosy pink, very free bloomer.
- No. 6664 Paul Neyron—Very large pure pink, 3 ft. stems.
- No. 6674 Prince De Camille De Rohan—Blackish maroon, fine form.
- No. 6681 Red Druski—A red Frau Karl Druski, extra large flowers.
- No. 6705 Soliel D'Or—Orange yellow, shaded nasturtium red.
- No. 6717 Ulrich Brunner—Good clear red, profuse bloomer. A favorite.
- No. 6718 Vanguard—Double orange-salmon, free bloomer, unusually hardy.

Price on above Hybrid Perpetuals, strictly No. 1, 2-yr. Field Grown Plants. Each 29c 3 for 75c; 10 for \$2.35; 25 for \$5.45; 100 for \$21.00.

SINGLE ROSES

The charming, dainty beauty of these Single Roses makes them immensely popular. Such varieties as Dainty Bess, Innocence and Cecil have a charm not attained in other varieties.

- No. 6521 Cecil—A lovely clear single yellow, with red stems.
 - No. 6534 Dainty Bess—Single, old-rose color, frimbriated edges.
- Price on above Single Roses, strictly No. 1, 2-yr. Field Grown Plants. Each 29c; 3 for 75c; 10 for \$2.35; 25 for \$5.45; 100 for \$21.00.

POLYANTHA

Also known as Floribunda. Baby Doll, or Sweetheart Rose. These dwarf growing Polyantha's are charming for edging, borders, or in beds, and form good low hedges. Continuous mass of blooms, early spring until frost.

- No. 6729 Cecile Brunner (Genuine Sweetheart Rose)—Bright pink and yellow.
- No. 6732 Crimson Baby—Light red, of good form and habit.
- No. 6889 Golden Mundi—Orange-scarlet that does not burn. Best of color.

- No. 6723 George Elger—Golden copper yellow, passing to clear yellow.
 No. 6736 Ideal—Dark velvety crimson, fine dark red.
 No. 6738 Katherine Zeimet — Double pure white, profuse bloomer.
 No. 6743 Perle D'Or—Long pointed orange-yellow bud of distinct beauty.
 No. 6747 Triumph De Orleans—Cherry red, bushy compact grower.
 Prices on above Polyantha Roses, No. 1, 2-yr. Field Grown Plants. Each 29c; 3 for 75c; 10 for \$2.35; 25 for 5.45; 100 for \$21.00.

TALL GROWING POLYANTHAS

These Tall Growing sorts are excellent for mass bedding, or planting in front of, or among your evergreens. Blooms are much larger, usually single, very profuse bloomers, and present a glorious sight in any garden.

- No. 6749 D. T. Poulsen—Bright blood red, large flowers, upright grower.
 No. 6751 Echo—Two-toned pink, large flowers in clusters.
 No. 6753 Else Poulsen—Bright rose-pink, large flowers in clusters.
 No. 6754 Gruss An Aachen—orange-salmon, upright grower, free bloomer.
 No. 6757 Salmon Spray—Salmon-pink, reverse carmine. Upright grower.
 Prices on above Tall Growing Polyanthas, No. 1, 2-yr. Field Grown Plants. Each 33c; 3 for 85c; 10 for \$2.65; 25 for \$5.95; 100 for \$22.50.

NEW AND RARE ROSES—HISTORICAL ROSES ROSE SPECIES—OLD-FASHIONED ROSES and Varieties Difficult to Find Elsewhere

The roses listed under this heading will prove a rare treat for the rose fancier and collector, and will add charm and dignity to any rose garden. Many of these listed are those splendid old varieties grown fifty years ago in your grandmother's garden, and are only listed now by one or two dealers in this country. Because of the scarcity of these varieties, they are of necessity higher priced.

- No. 6501 Adam Messerich—Lasting clear rose, Hybrid Bourbon class.
 No. 6514 Blanche Moreau—White moss rose, sweetly fragrant, heavily mossed.
 No. 6516 Dr. E. M. Mills—Hybrid Sweetbriar; peach blossom pink, fragrant foliage.
 No. 6526 Comtesse De Murialas—Well mossed fully double light pink.
 No. 6529 Crested Moss—Deep pink, surrounded by mossy crest and fringe.
 No. 6542 Dr. E. M. Mills—Rugosa Type, primrose yellow, tinted pink. Hardy.
 No. 6726 Yellow Moss—Beautiful, pure golden yellow, heavily mossed. New.
 No. 6861 Hermosa—China Rose, light blush pink, very fragrant.
 No. 6864 Hugonin—Father's Hugo's Rose, brought from Western China, long sprays of clear yellow roses in early spring.
 No. 6638 Mme. Hardy—A damask rose, white with green center, very fragrant.
 No. 6642 Mme. Leveque — Brilliant salmon-pink; rated by many best of all, in size, color and fragrance. Somewhat mossed.
 No. 6658 New Century—New Hybrid Rugosa; flesh-pink. Hardy everywhere.
 No. 6683 Rosa A La Parfum De La Hay—Cherry, carmine-red. Much in demand for making essence of roses, on account of its intense fragrance.
 No. 6697 Sanguinaire—Brilliant ox-blood red, yellow stamens. Hardy.
 Prices on all above New and Rare Old Roses, etc. No. 1, 2-yr. Plants. Each 49c; 4 for \$1.35; 10 for \$3.95; 25 for \$8.75; 100 for \$29.75.

MONTHLY BLOOMING CLIMBING ROSES

Varieties listed under this heading bloom persistently throughout spring, summer and fall; particularly adapted to planting in the South.

- No. 6758 Cherokee Pink—Lovely velvety pink, really a beauty for South.
 No. 6759 Cherokee Red—Velvety red, like above.
 No. 6760 Climbing Briarcliff—Climbing sport of popular Bush Briarcliff.
 No. 6761 Climbing Caledonia—Best monthly blooming white climber.
 No. 6762 Climbing Pink Cecil Brunner—Dainty pink flowers, but strong plant.
 No. 6763 Climbing Dainty Bess—A most charming single, old-rose climber.
 No. 6766 Climbing Etoile De Hollande—Best monthly blooming red climber.
 No. 6772 Climbing Mrs. Dupont—Best pure yellow monthly blooming climber.
 No. 6773 Climbing Pink Radiance—Pink climber, Radiance class.
 No. 6774 Climbing Red Radiance — Red climber, Radiance type.
 No. 6779 Climbing Talisman—A vigorous, healthy climber of this fine rose.
 No. 6781 Marechal Niel—Nankeen yellow; a sentimental part of the Old South.
 No. 6782 Mermaid — Buttercup yellow, large single; very lovely.
 No. 6783 Yellow Banksia—Small deep yellow flowers; fine deep South.
 All above strictly No. 1, 2-yr. Field Grown Plants, priced as follows: Each 29c; 3 for 79c; 10 for \$2.55; 25 for \$5.75; 100 for \$21.75.

HARDY CLIMBING ROSES

These very hardy varieties are favorites everywhere. They are extra-hardy, and in spring the plants are literally covered with hundreds of blooms.

- No. 6788 Climbing American Beauty—Deep rose flowers in profusion.
 No. 6791 Dr. W. Van Fleet—Cameo pink, long stems, fine for cutting.
 No. 6805 Pauls Scarlet—The most popular red climber grown today.
 No. 6807 Silver Moon—Large pure white, yellow stamens. Hardy.
 No. 6810 Violette—Deep pure violet, the only blue rose we know of.
 Priced for strictly No. 1, 2-yr. Field Grown Plants, as follows: Each 29c; 3 for 75c; 10 for \$2.35; 25 for \$5.45; 100 for \$21.00.

REMEMBER: We prepay charges on everything in this catalog.

DO NOT BUY FROM RADIO, MAGAZINE, OR NEWSPAPER ADVERTISING. UNDER THE IMPRESSION YOU ARE BUYING FROM THE WAXAHACHIE NURSERY COMPANY. WE DO NOT ADVERTISE OVER RADIO, IN MAGAZINES OR NEWSPAPERS.

PATENTED ROSES

These roses are highly advertised and are sold by us only under the patent rights of the originator. The prices on these roses are set by the patent owner, and the same price prevails all over the United States.

No. 7060 Nigrette—(Pat. No. 77). The black rose of Sauerhausen. The darkest of all roses. Nearly black.	1.00	10.00

FLOWER SEED

Our flower seeds are grown by recognized specialists in California, and they are just as good as you can get, regardless of the growing descriptions, and high sounding adjectives used by the seed houses. This growing of flower seeds, under ideal conditions, is centered in a small district in California, where they are grown and shipped to every section of the world. Our seed are the best they grow; they are no better than you can get from other first-class seedsmen, but they are identical in every respect. We do not mix old crop seed with new crop, so you may expect to get nearly 100 per cent germination from the seed we send out. Also, you can save about one-half on your seed bill; that is something to remember.

- Varieties marked * do better if planted in fall.
- No. 4001 Ageratum—Fine bedding and border plant; with deep amethyst blue compact plants. Pkt. of 1000 seed 7c.
 - No. 4002 Alyssum (Carpet of Snow)—Pure white flowers completely cover plant. Fine for beds, borders, etc. Pkt. 1000 seed 7c.

BOOKS

In response to the many requests we get for books, we list the following popular books:

GARDEN BULBS IN COLOR, by McFarland, Hatton, and Foley. The most exciting book about bulbs ever published, 275 color plates illustrate a great number of varieties of flowering bulbs, corms, and tubers, and form an invaluable aid to the selection and arrangement of varieties for your garden. There are also 100 beautiful halftones and cultural directions. 296 pages, 6¼x9¼ inches.

Formerly \$3.50 **NOW \$1.98**

MODERN ROSES, II, by J. Horace McFarland, Rev. Ed. For growers, nurserymen, and seedmen, the book constitutes an accurate check-list of rose names and descriptions for hybridizers, it is an incomparable source book of rose pedigrees; for garden growers of roses, it is a reliable guide to real facts. **\$5.00**

IRISES, by F. F. Rockwell. A handy guide for success with irises and for new uses and effects possible in your garden. Describes the dwarf, early, German, Japanese, Siberian, water, crested, Spanish, English, Dutch, and other types; tells how to plant and how to propagate stock for your own use. 54 illustrations, 80 pages. **\$1.25**

EVERGREENS FOR THE SMALL PLACE, by F. F. Rockwell. All the information you need to make the best use of evergreens is in this handy book, written by one who is himself a home owner and a garden maker. It tells the uses, characteristics, different types of small evergreens, and details of their planting, transplanting, etc. 67 illustrations, 84 pages. **\$1.25**

GLADIOLUS, by F. F. Rockwell. Recommended as "the best brief guide on gladiolus growing." It tells how to plant, fertilize, and cultivate; how to grow from seed or bulbets; how to harvest and cure; and how to handle for cut flowers. 45 illustrations, 70 pages. **\$1.25**

HOW TO GROW ROSES, by J. H. McFarland and Robert Pyle. A new edition of the best known book on practical rose-growing. It gives advice on how to use roses in the garden and around the home, how to bud them, locate the beds, prepare the ground, plant, care for in the summer, fight pests, protect in winter, prune and select types and varieties. 72 illustrations (40 in color). 180 pages. Half the former price. **NOW \$1.00**

HOME FLOWER GROWING, by E. C. Volz. A real flower garden encyclopedia! It will teach you how to propagate and cultivate your plants, how to care for, fertilize, and maintain them. It tells how and when and where to grow flowers, what different kinds look like, how to plan indoor, outdoor, rock, and water gardens; how to prepare exhibits for a flower show; how to organize a garden club. 151 illustrations, 363 pages. **\$3.00**

ROSES, by F. F. Rockwell. Tells just what the amateur flower lover can do with roses. Varieties are classified according to their uses as garden, climbing, and landscape roses and the part each of these plays in the garden is fully explained, with complete directions for rose care and culture, planting, propagation, protection from insects and diseases. 74 illustrations. 88 pages. **\$1.25**
